PROFESSIONAL SUMMARY

Motivated and detail-oriented Junior Software Engineer with hands-on experience in full-stack web development, software testing, and scalable application development. Experienced in React.js, Next.js, .NET, C#, JavaScript, MySQL, and Azure DevOps through internships and academic projects. Strong understanding of SDLC, Agile methodologies, debugging, and problem-solving with a passion for building efficient and user-focused software solutions.

TECHNICAL SKILLS

Languages: JavaScript, C#, C++, PHP, Kotlin

Frontend: HTML5, CSS3, Bootstrap, React.js, Next.js, Angular

Backend & Frameworks: .NET, REST API Concepts

Databases: MySQL, MSSQL

Tools & Platforms: GitHub, Azure DevOps, XAMPP

Concepts: SDLC, Agile, Scrum, Manual QA Testing, Problem Solving, Debugging

EXPERIENCE

Software Engineer Intern | PHD Solutions (Mar 2025 – May 2025)

- Contributed to software development activities while maintaining code quality and version control practices.
- Collaborated with development teams throughout SDLC phases to support feature implementation and project delivery.
- Participated in technical discussions and client-oriented development requirements.

QA & Operations Intern | Outsourcing Solutions (Jan 2025 – Mar 2025)

- Conducted manual software testing and bug reporting to improve application quality and reliability.
- Validated system functionality against business requirements and collaborated with developers to resolve issues.
- Supported operational workflows and quality assurance processes.

PROJECTS

Event Management System | Next.js, .NET, MSSQL, Azure DevOps

- Developed a full-stack university event management platform featuring online event registration and payment workflows.
- Implemented unique e-ticket generation and Gmail-based delivery system after payment verification.
- Managed CI/CD and deployment processes using Azure DevOps and integrated database-driven functionality.

Eye-Tracking Mouse Cursor | Python, OpenCV, MediaPipe, PyAutoGUI

- Developed an AI-powered hands-free mouse control system using real-time eye tracking and blink detection.
- Implemented facial landmark tracking to map eye movement into cursor navigation.
- Secured 1st position in university Project-Based Learning competition.

RedStore E-commerce Platform | PHP, MySQL, XAMPP

- Enhanced an e-commerce platform by implementing CRUD functionality and dynamic product management.
- Developed secure user authentication and database integration to improve functionality and usability.

EDUCATION

BS Computer Science (Post ADP) | University of Education, Lahore (2025 – 2027)

Associate Degree Program in Computer Science (ADP-CS) | Superior University, Lahore | CGPA: 3.88 (2023 – 2025)

Intermediate in Computer Science (ICS) | Fazaia Intermediate College, Lahore | Grade A (2021 – 2023)

CERTIFICATIONS & ACHIEVEMENTS

- Scrum Fundamentals Certified (SCRUMstudy)
- Advanced Diploma in Database Systems (Alison)
- 1st Position – University Project-Based Learning (PBL) Competition
